“Excellence in America's Workforce Begins with Excellence in Workforce Education.” This motto is used by the National Technical Honor Society (NTHS), a nationally recognized organization that acknowledges the recognition of outstanding student achievement in career and technical education.

Nine new members were recently inducted into the National Technical Honor Society (NTHS) at the KY Tech-Harrison Co. ATC. One student was inducted for each of the technical programs at the school; however, this year an additional student was added from the Family and Consumer Science Program from the Harrison Co. High School.

Each student nominated was required to meet a set of standards that includes a ninety-five percent attendance rate, a 3.0 grade point average, demonstration of school and community involvement and an essay describing their future career plans.

According to Louise Jackson, office technology instructor, “The NTHS membership gives these special students long deserved recognition. These kids are academically strong, but they are also very technically focused.”

The area technology center also received support for the program from local organizations including Maysville Community College and the Cynthiana Rotarians. Mr. Mark Sims, KY Tech-Harrison Co. ATC academic enrichment instructor, was responsible for coordinating the event.

For additional information about the NTHS and how your ATC can become a member, please visit <http://www.nths.org/Home/tabid/36/Default.aspx>
